Our practice collects personal health information on you that may be used for three primary purposes:

1) Treatment: For example, we will prepare a record of information each time we see you in or out of the office while you are under our care. This medical record is used to keep track of changes in your condition as well as remind us of your past care, treatment, allergies and other facts relevant to your overall health. This information may be passed on to other providers as part of a coordinated health care program for you.

2) Payment: We must report elements of your personal health information, such as specific treatments, visits, tests and surgeries along with related diagnosis to third party payers to properly determine benefits payable on your behalf for the services we render. We only report the minimum necessary information to process the claim.

- When we receive a valid authorization from you
- If you give us an oral authorization

Medicare Shared Savings Program Accountable Care Organizations

Working together to give you the best care.

Is part of an Accountable Care Organization (ACO). We've teamed up with other doctors, hospitals, and health care providers to make sure you get the best care.

We provide coordinated care for you to get well & stay well.

- You get patient-centered care focused on YOUR needs.
- Your health care providers can see the same test results, treatments, and prescriptions.
- More coordination helps prevent medical errors and drug interactions.
- You may save time, money, and frustration by avoiding repeated tests and appointments.
- Better communication can help protect against Medicare fraud and waste.

Get the most from your care with our communication & support.

- Ask about signing up for our secure online portal. You'll get 24-hour access to your personal health information, including lab results and communication from your health care provider.
- When you choose a health care provider that participates in an ACO, they'll help you get the right care at the right time. You can visit Medicare.gov and log into (or create) your secure Medicare account to choose a primary care doctor.
- Medicare protects the privacy of your health information. If you don't want Medicare to share information with your health care providers for care coordination, call 1-800-MEDICARE (1-800-633-4227). Medicare may still share general information to measure provider quality. For more information on how Medicare may use and give out your information, visit Medicare.gov and search for "privacy."

SERVICES

- You may create a secure account at Medicare.gov to help manage your health care team and/or change your Primary Care Physician at any time.
- Our practice participates with ACO. ACO is part of your health care team and can provide help scheduling appointments, care coordination services, locating a provider near you, and more at no additional cost.

HEALTH INFORMATION

- Medicare shares information about your care with your health care team, including visits, medical conditions, and current or past prescriptions.
- Medicare protects the privacy of your health information. Call 1-800-MEDICARE (1-800-633-4227) if you do not want your health information shared with your providers.
